PICKPOCKETS PLYING THEIR VOCATION WITH IMPUNITY.

Michigan vs. San Antonio in a Bird Fight. A Mad Dog Killed. The Jury Out in the Adeline Scoggia's Case.

PICKPOCKETS.

Special to the Gazette.

DALLAS, TEX., April 22.—Yesterday evening pickpockets went through the pockets of the passengers on the incoming Texas and Pacific train. The victims caught on and detected the thieves. The passengers got back their money and held the men under arrest. On arriving at Dallas, four or three gentlemen started for jail with their two prisoners. The prisoners escaped and their captors, with some officers who came up, started after them. The chase was exciting; but the thieves separated. Dashed into stairways and out of back doors and threw their pursuers off of the track, thereby escaping.

THE GREAT WAIN.

The great cocking man between the birds of Grand Rapids, Mich., and San Antonio, Tex., for \$50 a fight and \$50 on the side, was started today. The main will consist of seven fights. Four fights took place today, two of which were won by San Antonio and two by Grand Rapids. The first fight was quickly won by San Antonio on a foul during the first round. The second fight was between a grey cock, weighing four pounds ten ounces, of Grand Rapids, pitted against a dark red, weighing four pounds eight ounces, from San Antonio. The Michigan bird had the best of the fight until the end of the second round when San Antonio became the victor. The Grand Rapids bird went blind during the third round and the fight was awarded to San Antonio in the seventh round.

A Peculiar Fatality Among Horses in this City from Eating Poison Weed or Grass—Jersey Cattle Breeders to Meet.

General Livestock Notes.

It is said one man in Haskell county has lost over 2000 cattle this winter, out of an estimated stock of 3000 head.

Mr. Jack Hittson passed through Palo Pinto with about 1300 head of cows and calves Wednesday, which he will ship from Mineral Wells to some place in the Nation, to be kept there during the summer.

Smith & Hampton Tuesday shipped from Sherman via the Missouri, Kansas and Texas railway eleven car loads of beef cattle to St. Louis, 216 head in all. The cattle were in excellent condition, having been quarantined at the South Sherman fattening pens.

Hogs and Cattle Market.

Yesterday the packing house people got in some choice butcher cattle, especially the steers, and prices ranged from \$24.00 to \$26.00. The receipts of hogs, weight, sixty-one head, but were choice, and brought \$4.75.

Jersey Cattle Breeders to Meet.

The call for a meeting of the Jersey cattle breeders of the state has been issued to meet at Fort Worth on May 20 for the purpose of organizing a state association. A large attendance is expected, and the meeting will doubtless be a very important one to the breeders of thoroughbred cattle in the Southwest. The Chamber of Commerce has invited the gentlemen interested to hold their meeting at Fort Worth, and it is thought the headquarters of the association will be located in this city.

JOY UNBOCDED.

Cattlemen Elated Over Secretary Rusk's Decision in Changing Quarantine Line.

The announcement in THE GAZETTE yesterday that Secretary Rusk had changed his recent order placing the quarantine line far above where it has been for years, and that the line which had proved satisfactory for six years was again to govern, was received with joy by all the cattlemen of Texas. Had Secretary Rusk insisted on his first order it would have cost many Texas cattlemen thousands of dollars. Many contracts made would have, of necessity, been violated by Texas stockmen and Northern ranchmen would have suffered also. The removal of the embargo gave new life to cattle trading and arrangements were made yesterday for the movement of cattle to day to move cattle. The watering section in good condition and the outlook for fattening cattle is excellent. Never have cattle in Texas been more healthy or in such good condition as from all present signs Texas stock raisers will realize good prices for cattle. The disposition shown by Secretary Rusk to correct a mistake has made him many friends.

A DEAD MAN.

Found in a Sack in the Bottom of the River—Mysterious Man and Woman.

Special to the Gazette.

ARKMORE, I. T., April 22.—One day last week the body of a dead man was found floating in the Washita river at Brown's ferry, about three miles east of Tahlequah. The body had been in the river for some time, and was found by a man and woman, with a child, traveling through the country, camped near the old man's house and was helping him about his farm work. Shortly after the arrival of the old man disappeared, and upon inquiry as to his whereabouts they would state that he had left home for a few days. After awhile the old man and woman suddenly left the community, and as the child was not seen with them it is now believed that they murdered the old man and the child, secreted their bodies and left for parts unknown. It is supposed that the old man was the possessor of a large sum of money, which, coming to their knowledge, they plotted and carried out the foul crime to get possession of the money. The body will be investigated, and it is quite probable that other developments will soon be made and the mystery surrounding the crime be cleared away.

PLENTY OF WATER.

No Danger of a Flood in the Rio Grande This Spring.

Special to the Gazette.

ALBUQUERQUE, N. M., April 22.—During the last winter there was more snow in the Rio Grande valley than has ever been known before since the settlement of the country, and it was feared by many that when this went off it would work very serious damage to the valley below, but up to this time the snow has been melting very gradually, and though quite a large volume of water has been flowing in the Rio Grande there has not been enough to do any harm to the adjacent country. The weather has been altered, and the snow is now melting very gradually, and though quite a large volume of water has been flowing in the Rio Grande there has not been enough to do any harm to the adjacent country. S. HIS CHILDREN.

My little son had a number of bad ulcers and running sores to come on his head and body, which lasted for four years. I tried all the doctors and many remedies, but the sores still grew worse, until I did not expect him to live. My friends were confident that he would die, but I at length quit all other treatments and put him on Swift's Specific, and less than three bottles cured him a sound and healthy child. S. S. S. also cured a sore on another of my children.
